

MedChem 2009 - Does size matter? Beyond small molecule therapeutics: challenges and success stories

Programme

Friday November 6, 2009

Registration and Welcome Coffee

Introduction

Symposium Chairman

Frédéric DENONNE
(UCB PHARMA, Braine-l'Alleud, Belgium)

Synthetic Post-translationally Modified Peptides for the Discovery of New Biomarkers of Autoimmune Diseases: a 'Chemical Reverse Approach'

Anna-Maria PAPINI
(UNIVERSITY OF FIRENZE, Firenze, Italy)

Chemical Challenges in Antibody-Drug Conjugation

Vincent DE GROOT
(SYNTARGA B.V, Nijmegen, The Netherlands)

Coffee Break and Poster Session

Development of Crosslinking Transcription Factor Mimics

Lieselot CARRETTE
(GHENT UNIVERSITY, Gent, Belgium)

Nanobodies - from Camels to Therapeutic Proteins

Hilde REVETS
(ABLYNX, Antwerpen , Belgium)

Sandwich Lunch and Poster Session

Foldamers - Expanding the Chemical Space

Ivan HUC
(IECB & CNRS - UNIVERSITÉ DE BORDEAUX, Bordeaux, France)

Aptamers: from Concepts to Drugs

Jean-Jacques TOULME
(IECB & INSERM - UNIVERSITÉ BORDEAUX II, Bordeaux, France)

Coffee Break and Poster Session

Accepting Change: Structure Determination of siRNA Molecules Containing HNA and ANA and their Interaction with the PAZ Domain

Koen NAUWELAERTS
(KULEUVEN, Leuven, Belgium)

RNA Interference Approaches to Inhibit Cardiotropic Viruses

Jens KURRECK
(UNIVERSITY OF BERLIN, Berlin, Germany)

Closing Remark

MedChem 2009 - Does size matter? Beyond small molecule therapeutics: challenges and success stories
