

26èmes Journées franco-belges de Pharmacochimie

Programme

Thursday May 24, 2012

Accueil des participants

Séance inaugurale

Session Chair:

Dr. Franck SUZENET
(UNIVERSITÉ D'ORLÉANS, Orléans, France)

L01 - Novel 5-HT₇ antagonists for the treatment of migraine

Dr Ali ATES
(UCB, Braine-l'Alleud, Belgium)

OC01 - Synthèse de molécules d'intérêt pharmaceutique. Contribution à la synthèse des bastadines

Ing Christelle DECAMPS
(UMONS, Mons, Belgium)

Pause café et communications par affiches, session 1

Session Chair:

Prof. Bernard PIROTTE
(ULG, Liège, Belgium)

L02 - Foldamers: Expanding the Chemical Space

Dr Ivan HUC
(IECB & CNRS - UNIVERSITÉ DE BORDEAUX, Bordeaux, France)

OC02 - Design, synthesis and biological evaluation of pyrazole-based kinase inhibitors

Dr Patricia BUSCA
(UNIVERSITY PARIS DESCARTES, Paris, France)

OC03 - Design, synthesis and pharmacological evaluation of EGFR/VEGFR tyrosine kinase dual inhibitors

Ms Séverine RAVEZ
(ICPAL UNIVERSITÉ LILLE 2, Lille, France)

Déjeuner

Session Chair:

Prof. Francois DUFRASNE
(ULB, Bruxelles, Belgium)

OC04 - Synthesis of new molecular tools for the orphan receptor GLIC, homologous protein of the nicotinic acetylcholine receptors

Dr Sandrine DELARUE-COCHIN
(UNIVERSITE PARIS SUD, CHATENAY-MALABRY, France)

OC05 - New alpha-galactosylceramides with potent immunoregulatory activity : synthesis and biological evaluation

Dr Muriel PIPELIER
(UNIVERSITY OF NANTES, Nantes, France)

26èmes Journées franco-belges de Pharmacochimie

Programme

OC06 - Study of N1-alkylation of indoles from the reaction of 2(or 3)-aminoindole-3-(or 2)carbonitriles with DMF-dialkylacetals

Prof. Thierry BESSON
(UNIVERSITY OF ROUEN, COBRA-IRCOF, Rouen, France)

Pause café et communications par affiches, session 2

Session Chair:

Prof. Sylvain RAULT
(UNIVERSITÉ DE CAEN, Caen Cedex, France)

L03 - Promoting Immune Rejection of Tumors by Blocking Tryptophan Catabolism by IDO and TDO

Prof. Benoît VAN DEN EYNDE
(LUDWIG INSTITUTE FOR CANCER RESEARCH LTD, UCL, DE DUVE INSTITUTE, Bruxelles, Belgium)

Remise du prix des Journées Franco-belges de pharmacochimie

Communication orale du lauréat

Clôture de la séance

Banquet

Programme

Friday May 25, 2012

Session Chair:

Prof. Bernard MASEREEL
(UNAMUR, Namur, Belgium)

L04 - Development of cyclin dependent kinase inhibitors. Investigation of their molecular mechanism of action

Prof. Hervé GALONS
(SCT & PARIS DESCARTES UNIVERSITY, Paris, France)

OC07 - Conception, synthese et evaluation de composes ciblant les ADN methyltransferases

Mr Irving BOITTIAUX
(FUNDP-UCL, Woluwe Saint Lambert, Belgium)

OC08 - Activite antibacterienne, antioxyante et toxicite aiguë de quelques flavonoïdes

Dr Souâd AKROUM
(UNIVERSITY OF JIJEL, Jijel, Algerie)

Pause café et communication par affiche, session 3

Session Chair:

Prof. Raphaël FREDERICK
(FUNDP, Brussels-Woluwe, Belgium)

L05 - 3D pharmacophores in computational drug design: tools for hit discovery and lead optimization

Prof. Gerhard WOLBER
(FREIE UNIVERSITÄT BERLIN, Berlin, Germany)

OC09 - Identification by a SOSA library screening and structure-activity relationships of succinic acid receptor (SUCNR1 or GPR91) agonist

Mrs Julie GILISSEN
(ULG, Liege, Belgium)

OC10 - From the conception of FAAH inhibitors to the discovery of a novel class of selective CB₂ cannabinoid receptor agonists in the treatment of experimental colitis

Ing Aurelien TOURTEAU
(UNIVERSITE DE LILLE 2, Lille, France)

OC11 - Rational design of myeloperoxidase inhibitors using structure-based virtual screening

Mr Iyas ALDIB
(ULB, Brussels, Belgium)

Déjeuner

Session Chair:

Prof. Patrick DEPREUX
(UNIVERSITÉ LILLE 2, Lille, France)

OC12 - In vitro characterisation of anticancer properties relating to ferrocenyl and ferrocenophane complexes

Dr Céline BRUYÈRE
(ECOLE NATIONALE SUPÉRIEURE DE CHIMIE PARIS, Paris, France)

OC13 - Assessing the free brain/free plasma ratio in vitro in early drug discovery

26èmes Journées franco-belges de Pharmacochimie

Programme

Mr Maxime CULOT
(BBB LAB (LBHE) - UNIVERSITY OF ARTOIS, Lens, France)

L06 - Métabolomique et Chimie Médicinale, vers la découverte de nouvelles cibles thérapeutiques potentielles : application à la Dégénérescence Maculaire Liée à l'Age (DMLA)

Dr Pascal DE TULLIO
(ULG, Liege, Belgium)

Remise des prix des meilleures communications par affiche

Clôture du congrès
